

Woohoo! You've taken the first step towards

#RevolutionizingPassion!

Hey Samar,

We love that you've taken an interest in our pack and we would like to make sure the best learning material is easily accessible to you at all times.

Scheduling a course

Once you've selected a pack, you'll need to decide which course to begin with in the first month. In the app, you'll find the option to schedule your courses. If you're busy or unavailable for a particular month, that's perfectly fine—you can simply pause the pack by selecting "I'm not free for this month."

Earning certificates

As you accumulate sufficient XPs, you can obtain your certificates in stages: starting with the certificate of participation, followed by the certificate of competence, and, if necessary, you can request a letter of recommendation when ready.
